

Coastal Chaos...Hooks and Celebrations!

We kick off our coastal chaos topic with a visit to Lepe Beach and explore the habitats and features of the beach.

We explore animals and their habitats. We explore how they are suited to their habitats and the food chains within these habitats.

We dive into the world of Mr Grinling and his lunch.

We make a lunch and serve it to our parents. We write a menu to serve them and sit and enjoy a lighthouse keeper's lunch with our family
