

Down on the Farm

Magical Moments

Trip to Longdown Dairy
Farm
Farm Dress Up Day
Farm Sculptures
Tractors in the carpark
Meet our feathered friends

Key Questions

What is a farm?
Why do we have farms?
What animals live on a
farm?
Where does our food
come from?
What are tractors used
for?
What did farmers use in
the past?

Overview

During this half term we will be exploring aspects of farm life! We start our topic with a trip to Longdown Dairy Farm to begin our learning about the animals found on a farm. Using this knowledge and new information learnt at school, we will be creating our very own farm animal fact files. We will learn about animals and their young, including what their young are called. Towards the end of the half term, we will explore farm machinery and learn about how farm machinery has changed and progressed over many years.

By the end of this unit

- I can name some animals that could be found on a farm.
- I can name the farm animals and their young.
- I know why we have farms.
- I know the two main types of farming.
- I can talk about how farming has changed over the years.
