

London's Burning...Hooks and Celebrations!

We jump into our topic with a visit from the fire brigade. We talk about fire safety, how to prevent fire and keep safe in our own homes.

We then explore the characters that were important in the Great Fire of London. We then write a diary as Samuel Pepys to relive the events of the fire.

We then start really thinking about fire and we go out to the fire pit. We think about what it is like to be close to fire and use our senses to describe it.

We then get a special delivery and have a look at artefacts from the time and how this would affect dealing with a huge fire.

During our History we look at using different sources to find out information and how they give us different facts but they are still all true.

We also create London in the hall using houses we have made and reflect on how the fire changed London.
