

IT'S WORLD BOOK DAY!

We have a huge problem at School! We were reading a story and lots of the pages have been stolen. Can you work out the answers to these clues to find out what pages are missing?

- 1) This page number is the number you need to add to 8 to get to 20. Think about your number bonds to 20 to help you.
- 2) The second page number missing is a number in the 5s family that is odd and has 2 tens.
- 3) The third page that is missing is a number that is bigger than 32 and smaller than 35. It is an even number.
- 4) The next number is the next number in the fives family after 35.
- 5) This number is bigger than 40 and smaller than 60 and is in the tens family.
- 6) This page number is double 32.
- 7) The last page missing is an odd number. It has 8 tens and is an odd number smaller than 83.
